#### Significant Events

Arkema in Crosby, TX has exploded as expected. Two explosions were heard shortly after 2:00 AM from the evacuated facility. Hurricane Harvey damaged the cooling system for the organic peroxide tanks. Flooding prevented assistance and repairs to be made. The facility was evacuated, surrounding area was cleared by law enforcement in a 1.5 mile radius. In addition to the organic peroxide, chlorine was stored on-site. EPA's ASPECT plane will conduct a fly-over, with detection devices, as soon as safe. As of the last reports, no injuries.
